CARRIAGE OF DANGEROUS GOODS ON SHIPS OPERATING UNDER MOSS

Is the ship carrying dangerous goods?

YES

Identify and assess risks

RISK FACTORS
- Ship size and type?
- Area of operation?
- Passengers carried?
- DG classes and quantities?
- DGs carried in vehicles?
- DGs carried as freight or by passengers?
- Other considerations?

Manage risks through safety management system (documented in operator plan)

MNZ guidance
- Principles for safe carriage of DGs
- Minimum standards in rule

Policies and procedures
- Training and familiarisation with DG hazards
- Operating procedures
- Emergency procedures

Other mitigating measures
- Stowage and segregation
- Secure arrangements
- Safety equipment
- Fire protection
- PPE
