

**MARITIME SAFETY AUTHORITY  
OF NEW ZEALAND**

*Te Mana Arai Hauata Moana o Aotearoa*

**CERTIFICATE OF APPROVAL OF A SUBSTANCE AS AN OIL SPILL DISPERSANT**

**Issued pursuant to the Maritime Transport Act 1994 and  
Marine Protection Rule Part 132**

**PART A - SCOPE & DURATION OF APPROVAL**

**Grantee:** ONDEO Nalco New Zealand Ltd  
PO Box 3137  
New Plymouth

**Purpose:** Approval for the oil spill dispersant EC9500A as suitable for discharging into the sea, to contain or clean up an oil spill, in accordance with Marine Protection Rule – Part 132 – Dispersants and Demulsifiers.

**Approval Type:** This product is approved as:  
i. A Type 2 Dispersant; and  
ii. A Type 3 Dispersant.

**Date of Approval:** This approval was granted on 6 September 2002.

**Duration:** This approval is granted for an indefinite duration subject to the right of the Director to withdraw such approval pursuant to Marine Protection Rule Part 132.7.

**PART B - CONDITIONS OF PERMIT**

1. This approved dispersant shall not be used except for the purpose of combating marine oil spills subject to an approved marine oil spill contingency plan.
2. The approved dispersant shall be not used except in accordance with the application procedures and guidelines recommended by the manufacturer.
3. Each batch of the approved dispersant shall be tested to ensure it complies with the specifications set out for Type 2 and Type 3 dispersants under Marine Protection Rule – Part 132.9(1). Copies of all such test certificates shall be provided to the Director prior to distribution of the dispersant.
4. If the composition of the approved dispersant or its technical specifications change from the details given in the application for approval dated August 2002 and submitted to the Director, the grantee is required to notify the Director.

Issued by : \_\_\_\_\_

*for*  
Director of Maritime Safety  
Maritime Safety Authority  
PO Box 27006  
WELLINGTON

Date : 6 September 2002 \_\_\_\_\_

**Advice Note:**

1. The granting of this approval does not absolve the grantee or any user of the dispersant from the need to obtain such approvals, permits or authorisations that may be required under any legislation other than the Maritime Transport Act 1994 and marine protection rules made pursuant to that Act.
2. Pursuant to Marine Protection Rule – Part 132.7 the Director may withdraw any approval for an approved substance marine protection document issued under this Act, or under any marine protection rules, or impose conditions in respect of any such marine protection document, if he or she is satisfied that:
  - (a) one or more samples of the approved substance do not conform to the specifications warranted by the manufacturer or to the substance's chemical formulation given in the application for approval; or
  - (b) any controls imposed on that substance under Parts V or VI of the Hazardous Substances and New Organisms Act 1996 are not being complied with; or
  - (c) any conditions imposed under rule 132.5(1) relating to the approval of the substance are not being adhered to; or
  - (d) the substance is not being supplied as required under rules 132.5(2) and 132.5(3); or
  - (e) the approved substance is not submitted for testing as required under rule 132.6; or
  - (f) evidence shows that the substance is toxic to the marine environment.
3. Pursuant to marine protection rule 132.5, any batches of the approved dispersant must be supplied with:
  - (a) a material safety data sheet; and
  - (b) instructions from the manufacturer on its use.
4. Pursuant to rule 132.5(3), any batches of the approved dispersant must be supplied in one or more containers or bulk carriers that are:
  - (a) sound, clean, and dry; and
  - (b) suitable for the substance; and
  - (c) marked with:
    - (i) the name of the manufacturer; and
    - (ii) the name of the substance; and
    - (iii) the substance type; and
    - (iv) the dispatch date from the supplier; and
    - (v) the expiry date of the substance; and
    - (vi) any relevant safety warnings in compliance with the labeling requirements of New Zealand Standard 5433:1988 or its successor standard.

#### Notice of Approval—Part 132 of the Marine Protection Rules

Pursuant to Marine Protection Rule 132.4, I, Russell Paul Kilvington, Director of Maritime Safety, hereby give the following notice.

The dispersant known as EC9500A and manufactured in New Zealand by ONDEO Nalco New Zealand Limited, is hereby approved as a Type 2 and Type 3 dispersant for the purposes of the Maritime Transport Act 1994.

The approval is granted subject to the following conditions:

1. This approved dispersant shall not be used except for the purpose of combating marine oil spills, subject to an approved marine oil spill contingency plan.
2. The approved dispersant shall not be used except in accordance with the application procedures and guidelines recommended by the manufacturer.
3. Each batch of the approved dispersant shall be tested to ensure it complies with the specifications set out for Type 2 and Type 3 dispersants under Marine Protection Rule – Part 132.9 (1). Copies of all such test certificates shall be provided to the director prior to distribution of the dispersant.
4. If the composition of the approved dispersant or its technical specifications change from the details given in the application for approval dated August 2002 and submitted to the director, the grantee is required to notify the director.

Dated at Wellington this 6th day of September 2002.

RUSSELL PAUL KILVINGTON, Director of Maritime Safety.

### Food Act 1981

---

#### Amendment No. 7 to the New Zealand (Maximum Residue Limits of Agricultural Compounds) Mandatory Food Standard 1999

##### Pursuant to Section 11G of the Food Act 1981

Amendment No. 7 to the New Zealand (Maximum Residue Limits of Agricultural Compounds) Mandatory Food Standard 1999 was issued by the Minister for Food Safety on 13 September 2002.

Amendment No. 7 will come into force 28 days after the date of this *New Zealand Gazette* on 17 October 2002.

Amendment No. 7 makes the following changes:

- addition of new maximum residue limits for: Cefquinome, Marbofloxacin, Maleic Hydrazide, Spinosad
- amendment of existing maximum residue limits for Phosphorous Acid
- transfer of the MRL for Diphenylamine from the Food Regulations 1984 into the MRL Standard 1999.

Compliance with the provisions of the New Zealand (Maximum Residue Limits of Agricultural Compounds) Mandatory Food Standard 1999 is mandatory.

The New Zealand (Maximum Residue Limits of Agricultural Compounds) Mandatory Food Standard 1999 and its amendments can be viewed on the New Zealand Food Safety Authority website:

<http://www.nzfsa.govt.nz>

or can be inspected at the New Zealand Food Safety Authority, 86 Jervois Quay, Wellington.
