1. Overview

Integrated Rating (IR) certificate of proficiency

This guideline is for new applicants for the Integrated Rating certificate of proficiency. It does not cover recognition of an equivalent certificate obtained outside New Zealand.

The information in this guideline covers sea service and other requirements for the certificate, how to apply and pay for your certificate, and where to find more information.

Once you have your IR certificate it does not expire and will not need to be renewed.

The IR certificate corresponds with certificates issued under regulations II/5 and III/5 of the International Convention on the Standards of Training, Certification and Watchkeeping for Seafarers, 1978, as amended (STCW).

With this certificate, you can perform the functions and duties of:

- deck crew member on ships of any gross tonnage in any operating area
- crew member in a manned engine room or periodically unmanned engine room on passenger or non-passenger ships of any propulsion power in any operating area.

Note: As the IR certificate requires you to have your Able Seafarer Deck (AB Deck) and Able Seafarer Engine (AB Engine) certificates and associated ancillaries, no additional training or examination are required. You will need to meet the general requirements for obtaining a new seafarer certificate, such as medical and fit and proper person requirements, and provide copies of your current certificates and ancillaries.

From IR you can progress to Watchkeeper Deck and Marine Engineer Class 3 (MEC 3).

Disclaimer

These guidelines provide information and explanations about the requirements set out in the maritime rules, but are not a substitute for the rules themselves, which are the law. These guidelines refer to provisions in the Maritime Rules Part 32, Seafarer Certification. The Director of Maritime New Zealand will grant a certificate only when satisfied that all requirements have been met.

In this guideline, any references to 'we' or Maritime New Zealand relating to a decision about the issue or renewal of any seafarer certificate are references to the Director or a person acting under the Director's delegated authority.

2. Requirements

Before you spend time doing sea service we recommend you check that you can meet the medical fitness and eyesight standards (including for colour vision), and that you understand the fit and proper person requirements.

Each of these requirements and how to prove that you meet them is explained below.
